

Assure Data Archiving

Extend visibility beyond 12 months with a secure, scalable solution that keeps student activity data accessible, compliant, and audit-ready for years.

Audit-Ready Student Data Archiving

Current student activity data retention policies typically limit storage to 12 months, which falls short of meeting institutional audit, compliance, and policy requirements. This shortfall hinders the ability to provide historical evidence for inspections, reviews, and investigations, potentially compromising accountability and transparency.

Assure Standard's Data Archiving extension offers a robust solution by enabling secure, scalable, and audit-ready storage beyond the default 12-month retention period. It ensures long-term accessibility of historical records without affecting system performance or introducing operational complexity. Retention options support compliance with evolving data governance and regulatory standards.

What Are The Benefits?

- 1 Extended Data Access**

Gain multi-year visibility into student activity and alerts, ensuring no critical information is lost over time.
- 2 Confident Compliance**

Easily meet legal and safeguarding requirements with secure, audit-ready archives.
- 3 Cost-Effective Storage**

Reduce expenses with scalable, cloud-based archiving designed specifically for educational institutions.
- 4 Support for Investigations**

Quickly retrieve historical records to assist with audits, legal inquiries, or internal investigations.
- 5 Insightful Trend Analysis**

Uncover long-term behavioural patterns to enhance digital wellbeing initiatives and inform policy development.

Assure Data Archiving Capabilities

Historical Incident Review

Access archived activity to investigate incidents beyond standard retention periods.

Compliance Assurance

Store data securely to meet national and regional digital safety regulations.

Legal Record Support

Provide verified historical records to support legal inquiries and dispute resolution.

Audit-Ready Documentation

Maintain long-term records to demonstrate policy compliance during audits.

Behaviour & Policy Insights

Analyse long-term trends to improve wellbeing strategies and school policies.

Secure Access Controls

Use role-based permissions to protect archived data while ensuring staff access.
