

ADD ON MODULE FOR
STANDARD & LITE

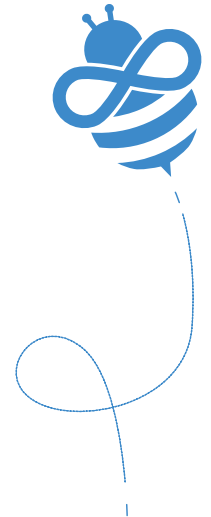

LMS Connector

Keep lessons on track with Assure-powered LMS controls for teachers to trust and use instantly.

Simplified Classroom Control

Schools are under pressure to ensure safety and engagement, but IT teams face tool overload and limited resources. Teachers need fast, policy-aware controls within the LMS, while Principals require clear visibility to meet audits and duty-of-care standards.

The LMS Connector, an add-on for Assure Standard and Lite, embeds classroom controls directly into the LMS. Teachers can instantly allow or block websites, view live student activity, and detect hotspot bypasses—all without leaving the LMS. IT retains central governance, and Principals gain audit-ready oversight without disrupting teaching.

What Are The Benefits?

- 1 Stronger Compliance**
Provides audit-ready oversight by ensuring classroom actions follow centrally enforced policies.
- 2 Improved IT Efficiency**
Minimises support requests and tool switching, teachers manage controls directly within their LMS.
- 3 Enhanced Classroom Focus**
Teachers can instantly block distractions, allow lesson-specific sites, and automatically return to default settings.
- 4 Reliable Policy Assurance**
Controls are always aligned with IT and school-wide policies, preventing unauthorised changes.
- 5 Fast Teacher Adoption**
Works within familiar LMS workflows, making it easy for teachers to use without extra training or tools.

LMS Connector Capabilities

LMS Integration

Works within Google Classroom, Teams, Canvas, Schoology, and Schoolbox, no app switching needed.

In-Class Website Control

Teachers instantly allow or block sites to reduce distractions and support lesson flow.

Policy-Aware Enforcement

Teacher actions follow Assure's central IT and school-wide rules for full compliance.

Offline / Hotspot Detection

Flags offline students to reveal hotspot bypass attempts and ensure duty-of-care.

Central Governance

IT sets controls once in Assure; classrooms inherit settings, reducing risk and admin load.

Leadership Visibility

Classroom activity feeds audit-ready dashboards for reporting, compliance, and strategic school oversight.
